

# Enhanced In-Situ Testing and Geotechnical Site Characterization

*(with emphasis on the Cone Penetration Test and  
its derivatives: CPT, CPTu, SCPT)*

**Paul W. Mayne, PhD, P.E.**  
**Geotechnical Engineering**  
**Georgia Institute of Technology**

**CEE 6423 – Spring 2014**

# Enhanced In-Situ Testing and Geotechnical Site Characterization

## CEE 6423 – Course Notes

Paul W. Mayne, PhD, P.E.

Professor - Geosystems Engineering Group  
School of Civil & Environmental Engineering  
Georgia Institute of Technology  
790 Atlantic Drive  
Mason Building Room 2245  
Atlanta, GA 30332-0355

Phone: 404-894-6226

Fax: 404-894-2281

## Spring 2014

# Enhanced In-Situ Testing: Table of Contents

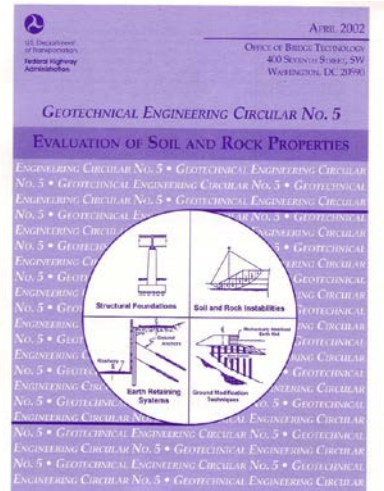

Section	Page No.
1 - Introduction and Overview on In-Situ Testing .....	1
Drilling, Augering, Sampling and Rock Coring.....	3
Standard Penetration Test (SPT).....	5
Vane Shear Test (VST).....	9
Flat Plate Dilatometer Test (DMT).....	17
Pressuremeter Test (PMT).....	20
Cone Penetration Testing (CPT) - equipment & procedures.....	26
CPT Soil Behavioral Classification charts and methods.....	34
2 - Specialized in-situ tests: LPT, IBS, TSC, HF, KoSB.....	41
3 - Geophysical Tests (CHT, DHT, SASW, SCPT, SDMT).....	42
4 - Relative density of clean sands.....	55
5 - Effective stress friction angle.....	62
6 - Critical state soil mechanics for dummies.....	79
7 - Overconsolidation of clays by CPTu and DMT.....	85
8 - First order estimates of $P_c'$ by cone penetrometer.....	96
9 - Sample disturbance effects.....	105
10 - Undrained shear strength of clays.....	110
11 - Case study: Cooper Marl.....	122
12 - $K_0$ evaluations in clays and sands by CPT.....	128
13 - Porewater dissipation interpretations.....	138
14 - Nontextbook geomaterial: Piedmont residual soils.....	151
15 - Mat settlement on Piedmont soils by DMT .....	156
16 - Stiffness of soils.....	163
17 - Evaluation of footing response by seismic cone.....	171
18 - Pile foundation response using SCPTu.....	178
19 - In-situ calibrations for soil parameter evaluations (Singapore 2006).....	196
20 - Special applications and methods.....	203
21 - Seismic geotechnics - liquefaction and site amplification.....	208
22 - Epilogue: Intl. Symposium Cone Penetration Testing (CPT'10).....	230
23 - Direct CPT Method for Shallow Foundation Evaluation.....	252
24 - <i>2009 Michael W. O'Neill Lecture</i> - Univ. of Houston.....	272
25 - References.....	294
26 - Websites on In-Situ Testing.....	306
27 - Units conversion factors - SI and English Imperial units.....	312

## Table of Contents (CD Version)

- **In-Situ Testing Course Notes** on Geotechnical Site Characterization (printable version) and **COLOR** PDF version.
- National Highway Institute Manual (2002): **Subsurface Investigations: Geotechnical Site Characterization**, by Mayne, Christopher, & DeJong, 301 pages

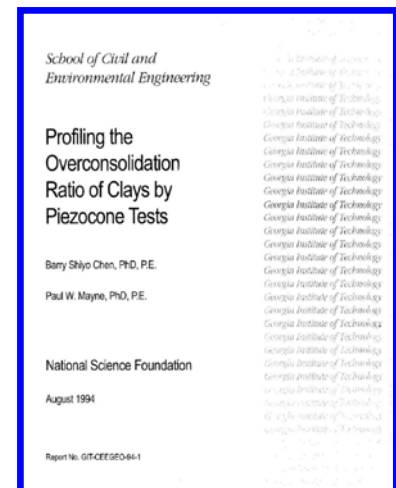

- **FHWA Geotechnical Engineering Circular (GEC 5)** (2002): **Evaluation of Soil & Rock Properties**, by Sabatini, Bachus, Mayne, Schneider, and Zettler, Federal Highway Administration, Washington, DC: 385 pages.
